

Privacy Policy

This privacy policy only applies to the collection and use of personal data by Numis in the context of the Numis Corporate App (“App”). It does not apply to any other use of personal data by Numis.

References in this App Privacy Policy to “Numis”; means Numis Securities Limited (a company registered in England and Wales with registration number 02285918 and registered office at 10 Paternoster Square, London, EC4M 7LT).

For the purposes of data protection legislation in the EU and UK, Numis is the “data controller” (i.e. it is the company responsible for and which controls the processing of your personal data for the purposes of the App).

The App is simply a different way of accessing the same content Numis provides to you as a client under your existing engagement. Numis only processes personal data for the App where it is necessary for your access and use of the App (to perform the contract that Numis has entered into with you) or where Numis needs to comply with a legal or regulatory obligation.

The App will only collect:

- your email address and the UDID number of your device for the purposes of authorising your device to access information from Numis via the App. This is to ensure the security of Numis’ systems, servers and the information provided via the App; and
- information about your interactions with the App and its content to allow Numis to personalise and tailor the App content and how it is presented to suit your needs and to enhance your experience.

Numis holds your contact details because of its existing engagement with you for the provision of services. For the purposes of the App, Numis uses these contact details (such as your name, job title and email address) to invite you to install and use the App and to authorise the initial installation of the App on your device. Numis does not make any other use of your contact details for the App.

If you do not allow Numis to process any personal data for the purposes of the App, Numis will be unable to provide you with access to the App for security reasons.

Numis is committed to taking appropriate technical and organisational measures to protect your personal data against unauthorised or unlawful processing and against accidental loss, destruction or damage.

The App is hosted on the cloud on behalf of Numis by Microsoft Azure. Numis requires Microsoft Azure to have appropriate technical and organisational measures in place to protect your personal data.

Numis will never share any personal data collected via the App with any other third parties. Numis will also not transfer your personal data outside of the European Union.

Numis will retain your personal data collected via the App for as long as needed to provide you with access to and use of the App as described in this App Privacy Policy and to comply with the law.

Data protection legislation in the EU and UK provides individuals with certain rights regarding the use of their personal data. These rights include the right to:

- access a copy of your personal data;
- have inaccurate personal data corrected;
- object to Numis processing your personal data if Numis is not entitled to use it anymore;
- have your personal data deleted, or have its processing restricted in certain circumstances;
- port your personal data in certain circumstances; and
- object to direct marketing.

If you would like to exercise any of these rights, you will find Numis' contact details set out below.

You also have the right to lodge a complaint with the UK regulator, the Information Commissioner's Office, if you have concerns about how Numis uses your personal data.

Numis reserves the right to update this App Privacy Policy at any time. Numis will provide you with a new App Privacy Policy when it makes any substantial updates.

Numis' Data Protection Manager is Ian Wright who can be contacted at dataprotection@numis.com or +44 (0)20 7260 1000 if you have questions in relation to your personal data.
